Relevant Experience

Student Intern, Providence Home Health

Portland, OR — June 2022-August 2022

Level II fieldwork for occupational therapy doctorate. Travel to homebound patients residences for assessments and interventions. Typical interventions include: home exercise programs, energy conservation/work simplification, patient and caregiver education, environmental modifications for safety, medication and condition management, and train patients and caregivers on durable medical equipment use.

Student Intern, Oregon State Hospital

Salem, OR — August 2021-November 2021

Level II fieldwork for occupational therapy doctorate. Collaborate with clinicians and fellow interns to deliver appropriate services for medically fragile clients residing at Oregon's inpatient psychiatric hospital. Daily responsibilities include: conducting and interpreting assessments, delivering group and 1:1 interventions, advocating for clients needs, and contributing during interdisciplinary team meetings.

Personal Assistant, United Cerebral Palsy Oregon

Portland, OR — March 2018-July 2019

Assist individuals one on one in their homes with activities of daily living. Aid with emotional processing, provide information for informed decision making and serve as an ally in self-advocacy.

Employment Specialist/Job Coach, United Cerebral Palsy Oregon

Portland, OR — May. 2016-March 2018

Empower personal choice for job seekers experiencing barriers to employment, paying particular attention to how job seekers define success and what employment means to them. Engage in community networking with businesses throughout the Portland Metro area. Caseload eight to twelve job seekers.

Education

Pacific University: School of Occupational Therapy

Occupational Therapy Doctorate — 2019- 20222

Professional level doctorate in the field of occupational therapy. Cousework includes: physical disabilities, neuroscience with emphasis cognition, geriatrics, pediatrics, evidence based practice, occupational justice, and capstone research.

Portland Community College

Post-Baccalaureate Studies — 2017-2019

Courses include Anatomy and Physiology, Developmental Psychology, Abnormal Psychology, and mathematics.

The University of North Carolina at Asheville

Bachelor of Fine Arts in Sculpture — 2003-2009

Studied visual arts with a concentration on metal casting and wood sculpture. Served as two years as treasurer for student art organization on campus. Organized art events on and off campus with other schools in the region and private art galleries.
